| Ref No | 3 | Academic Year | 2008/2009 |
| Issue Title | The Derived variable L_ATYPE - In Year Aim Type for a Learner is not set to -1 where the Derived variable L_ACTIVE Learner Active for the current academic year is 0. | | |
| Issue Description | <p>The L_ATYPE derived variable should account be set to the missing value of -1 where the learner has no aims which are active during the current academic year. This is defined by L_ACTIVE is equal to 0.</p> <p>The 0809 Employer Responsive dataset W04 prepared on 5 December 2008 populates L_ATYPE regardless of the value of L_ACTIVE. This affects 6,946 learners.</p> <p>The 0809 Learner Responsive dataset F01 prepared on 2 December 2008 populates L_ATYPE regardless of the value of L_ACTIVE. This affected 2270 learners</p> <p>This issue will effect all datasets prepared in 2008/09.</p> | | |
| Additional Info | | | |
| Suggested Workaround | Include a check for L_ACTIVE= 1 when using L_ATYPE. | | |
| Resolve Description | This issue is considered to be low impact and there are no plans to fix this issue. | | |
